Microfluidics Special Issues:

Microfluidic Devices for Continuous Separation

Guest Editor
Prof. Dr. Wim De Malsche

Deadline
10 December 2020

Special Issue

mdpi.com/si/45759 Invitation to submit

With this Special Issue, the latest developments on continuous separations will be reported. We are convinced that by collecting your latest developments in a Special Issue focusing on this exciting research area, a high impact and broad visibility in the research community will be reached. Topics including, but not limited to:

- Continuous separation
- Microfluidic separation
- Integrated separation

<https://mdpi.com/si/45759>

Dedicating a Special Issue to "Microfluidic Analysis and Separation Techniques" is an ambitious challenge to which we would like to invite you all. Hopefully, your contribution will mirror the vast number of applications of microfluidics and strengthen it as a multidisciplinary field. Topics including, but not limited to:

- Micro flow manipulation
- Imprinted chips
- Cell separation
- Chemical analysis
- Microfluidics paper-based devices
- Clinical diagnosis

Microfluidic Analysis and Separation Techniques

Guest Editor
Dr. Raquel Beatriz Ribeiro Mesquita

Deadline
10 May 2021

Special Issue

mdpi.com/si/57217 Invitation to submit

Electrophoretic & Chromatographic Separation Special Issues:

Spectroscopy and Chromatography Coupled to Mass Spectrometry in Cannabinoid Research

Evaluation of Flavour Samples Using Gas Chromatography–Tandem Mass Spectrometry

Chromatographic Data Processing and Modelling Strategies

Analytical Chromatography Applied to Archaeology

Special Issue

Advances in Chromatographic Techniques in Drug Metabolism and Pharmacokinetics
Current Trends in Chromatography for Bioanalytical Applications
Chromatographic Techniques in Forensic Chemistry and Toxicology
Applications of Liquid–Liquid Chromatography
Electrophoretic Methodologies for Protein Analysis

The cover features the journal logo 'separations' and the text 'an Open Access Journal by MDPI'. A yellow circular badge in the top right corner displays 'IMPACT FACTOR 1.900'. The title 'Ideas of the Future: Novel Technologies in Separation Science' is centered. Below it, the guest editor 'Dr. Jelle De Vos' and the deadline '20 February 2021' are listed. The URL 'mdpi.com/si/50556' and the phrase 'Invitation to submit' are at the bottom.

<https://mdpi.com/si/50556>

The cover features the journal logo 'separations' and the text 'an Open Access Journal by MDPI'. A yellow circular badge in the top right corner displays 'IMPACT FACTOR 1.900'. The title 'Chiral Separation by Liquid Chromatography' is centered. Below it, the guest editor 'Dr. Michal Kohout' and the deadline '31 December 2020' are listed. The URL 'mdpi.com/si/49208' and the phrase 'Invitation to submit' are at the bottom.

Diagnostics, Drug Testing & Personalized Medicine Special Issues:

The cover features the journal logo 'separations' and the text 'an Open Access Journal by MDPI'. A yellow circular badge in the top right corner displays 'IMPACT FACTOR 1.900'. The title 'Fractionation and Sample Preparation Techniques Used in Bioanalyses' is centered. Below it, the guest editor 'Dr. Eszter Simon' and the deadline '30 November 2020' are listed. The URL 'mdpi.com/si/50540' and the phrase 'Invitation to submit' are at the bottom.

<https://mdpi.com/si/50540>

The cover features the journal logo 'separations' and the text 'an Open Access Journal by MDPI'. A yellow circular badge in the top right corner displays 'IMPACT FACTOR 1.900'. The title 'Extraction, Isolation and Determination of Drugs, Metabolites and (Bio) Markers in Complex Matrices' is centered. Below it, the guest editors 'Dr. Michele Protti, Prof. Dr. Laura Mercolini, Dr. Roberto Mandrioli' and the deadline '28 January 2021' are listed. The URL 'mdpi.com/si/44516' and the phrase 'Invitation to submit' are at the bottom.
